COMMON QUESTIONS

Seed funding for African startups: common questions

Everything founders ask before they create an account.

What is seed funding for African startups?

Seed funding helps early-stage African startups build MVPs, hire early team members, run pilots, and reach initial traction.

What counts as seed funding on this page?

How do I know which seed funding fits my startup?

See how it works →

Do you just show me funding, or help me apply?

Is it really free to create an account?

How often is the funding list updated?

Do you cover accelerators and investors, or just grants?

What happens after I submit an application?

FOR FOUNDERS

Pitch investors while you sleep.

Your matched funding list refreshes weekly, your applications draft themselves from your deck, and your pitch gets checked before you ever hit submit — working for you around the clock, not just when you have time to search.
